

May 18, 2010

Dear Nationwide Adjusting Company,

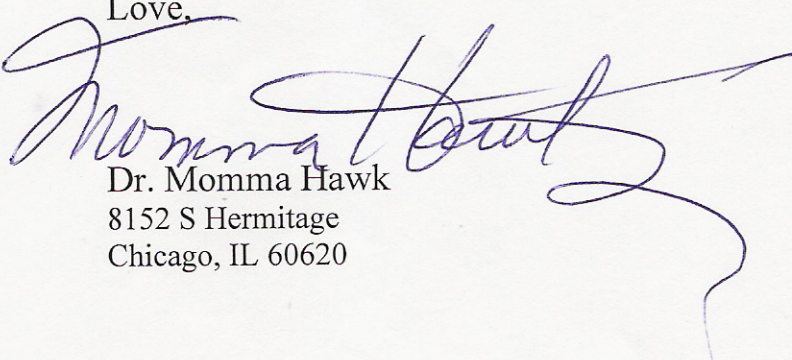

December 28, 2009 I was the victim of a terrible fire at my home 8152 S. Hermitage. First I want to thank you for Chuck Hadley your rep who stayed with us until we houses brought us food & guided us there the trauma.

I most appreciate the excellence & comfort of your office staff who was always available, courteous, helpful during my experience.

But to top off my experience Nationwide Adjusting Company I thank you for being attentive knowing construction work over-seeing my smallest concern with understanding & for supervising Windsor Construction, on for restoring my house into a palace.

Your concern about the smallest detail & the promptness of service made this experience bearable, I would love to be used as a reference to anyone who needs not only good service but also excellent customer care.

Love,

Dr. Momma Hawk
